

Training Program

Who are we?

Conart Engineers Ltd. is amongst the most experienced and acclaimed building and civil construction firms in India with a strong reputation for project excellence. For over four decades, we have been transforming the ideas and visions of our clients into award-winning projects. We have always been delivering all the projects to exceed our client's expectations for safety, quality, functionality, and aesthetics. We build finished products that stand the test of time.

What is the training program?

A corporate social responsibility (CSR) activity is a company's commitment to managing the social, environmental, and economic effects of its operations responsibly and in line with public expectations. The purpose of corporate social responsibility is to give back to the community, take part in philanthropic causes, and provide positive social value. The training program is a CSR activity organized by Conart Engineers Ltd.

What should you expect?

The training program that we are offering is a comprehensive e-learning program, which means the whole process of training is curated online. The duration of the training program will be two weeks, after which each student will be enrolled for a three-month internship. After the completion of the training and internship program, a certificate will be awarded to each student. The certificate will affirm the end of our program.
